WORK EXPERIENCE

Cymetrix Software –Salesforce Developer

Mumbai-India

June 2022 – Current

- I have provided Salesforce Support for UAE based Construction Material Company for handling Backend of their sales and operation which was built on Salesforce cloud Platform.
- Another project that I worked on is the creation of the web order system for Pharmaceutical Company using Salesforce and Experience Cloud Platform.
- I worked on creating Objects and Fields along with creating appropriate Relationships among the objects, created Formula fields.
- Written Visual force pages, Apex classes, Apex triggers along with its Test classes.
- I have also created flows and LWC Components required for some functionality.
- As this Application had to be developed in various languages I handled the Translation Part of the application using Translation workbench and custom Labels.
- I was also Involved in data migration activities using data Loader and workbench

Cymetrix Software –Salesforce Intern

Mumbai-India

Nov 2020 – May 2022

- During my first 6 months of internship, I completed comprehensive Salesforce Administration and Development training at Cymetrix Software.
- **Recruitment Application:** I created a Recruitment application for organization using Salesforce and Community Cloud Platform.
- As a Part of this project I worked on creating custom objects, Approval Process, Workflows and Process Builder along with that I handled the user views Using Profiles, Roles and Permission Set and Reports and Dashboard.
- I have also worked on creating apex Triggers for some functionality.
